## STARR INTERCHANGE

October 22, 2015

Welcome:

Thank you for attending this informational meeting regarding the Nevada Department of Transportation's (NDOT) I-15 at Starr Avenue Interchange Project. Proposed improvements include the construction of an interchange providing access in all directions between I-15 and Starr Avenue, the construction of Starr Avenue between Dean Martin Drive and Las Vegas Boulevard, installation of traffic signals, signing and striping, improvements to drainage and flood control facilities, and landscaping and aesthetics.

This meeting will be open-house format from 4 to 7 p.m. Project representatives will give a brief presentation beginning at 5:30 p.m., followed by a question and answer period from the audience. The presentation and public comment period will be recorded by a hired court reporter.

As you enter the room, you will notice displays describing the project. Project representatives will be located at the displays. Please take this opportunity to ask questions and discuss the project with them.

During this meeting, as well as any public meetings conducted by NDOT, we are seeking your input. At today's meeting there are several ways you may give us your comments for the public record:

**First:** During the open-house meeting, you may make an oral statement to the court reporter, who will be available throughout the entire meeting.

**Second:** You may fill out the comment form attached to this handout and deposit it in the comment box or give the completed form to one of the project representatives.

**Third:** The public meeting record will remain open for two weeks following this meeting. If you would prefer to write a letter or mail your completed comment form and any exhibits, these will become part of the public transcript for this meeting if mailed to NDOT, Ryan Wheeler, Project Manager, 123 East Washington Ave., Las Vegas, NV 89101, and received by **5 p.m., Friday, November 6, 2015.**

**Fourth:** You may e-mail your comments to [info@dot.state.nv.us](mailto:info@dot.state.nv.us). Please reference this project in the subject line. E-mail comments will also be accepted until **5 p.m., Friday, November 6, 2015.**

Thank you for attending this informational meeting and for giving us your comments.

Ryan Wheeler, P.E., NDOT Project Manager

## I-15/STARR INTERCHANGE PROJECT FACT SHEET

The I-15 Starr Avenue Interchange is in the I-15 South Corridor planning area, which includes planned improvement projects from Tropicana Avenue to Sloan Road. Previous constructed projects in this area include I-15 Design-Build South (infrastructure improvements from Tropicana Avenue to Blue Diamond Road) and the Cactus Interchange. The I-15 Starr Avenue Interchange will add a vital link to I-15 and improve freeway capacity. The project will also enhance local mobility by connecting Starr Avenue from the west side of I-15 at Dean Martin Drive to the east side of I-15 at Las Vegas Boulevard. This project will help reduce crashes and alleviate existing and projected congestion on local streets that access I-15 and I-215 via Eastern Avenue, Cactus Avenue and St. Rose Parkway.

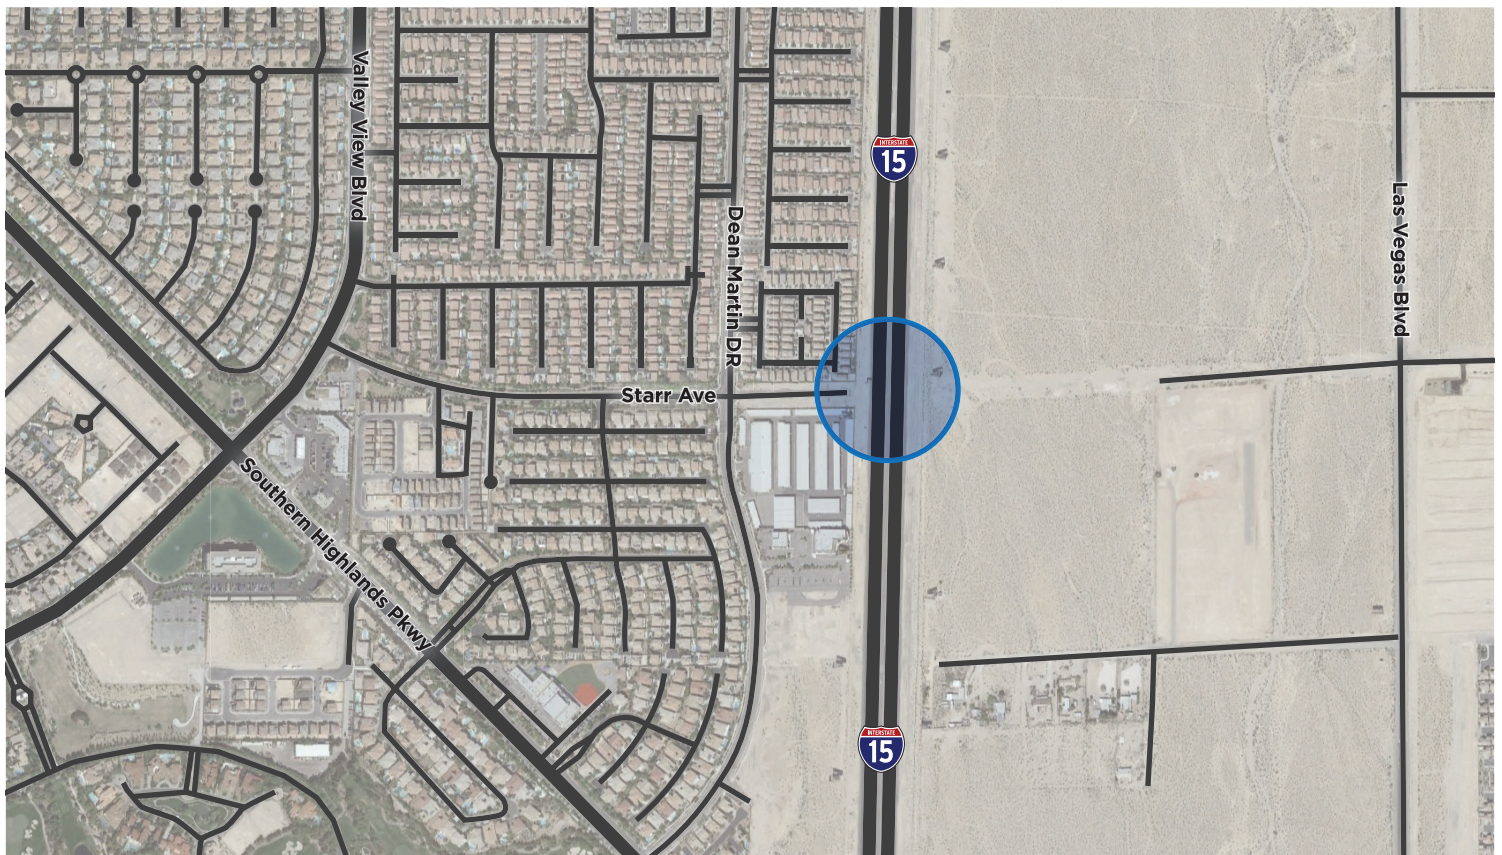

### PROJECT DETAILS

- A new interchange at Starr Avenue with on- and off-ramps
- Starr Avenue connections with Las Vegas Boulevard (east side) and Dean Martin Drive (west side)
- Construction of I-15 over Starr Avenue
- Sidewalks, crosswalks, bicycle lanes, lighting and signals
- Landscaping/aesthetics and drainage improvements

### PROJECT BENEFITS

- Improving access to I-15 for residents and businesses
- Connecting east-west regional traffic from Las Vegas Boulevard to/from Dean Martin Drive
- Improving safety, mobility and connectivity by reducing congestion on I-15, I-215 and local street networks

## TIMELINE

## FUNDING

- Total construction cost: \$40-52 million
- Funding source: fuel revenue indexing (\$35 million); federal and state funding (balance)

## METHOD

The traditional method, known as “Design-Bid-Build,” where final design, project bidding and construction occur sequentially.
